# CSU NORTHRIDGE

“At CSUN we offer you the possibility to make the most out of your General Education experience. Students enrolled in the GE Paths program **explore a special theme or major question from an interdisciplinary perspective** in the context of their general education requirements. You choose one of the different paths offered in the program based on your personal and intellectual interests and you take courses associated with the path. You do not have to take any additional courses in order to fulfill the requirements for the path.”

# SIERRA COLLEGE

“...we invited departments to write a short description of their GE courses that would be most appropriate for students in certain types of majors to take. Rather than copy the catalog information, the department explained how these courses could fit into a broader pattern of general education. These were compiled and distributed to all faculty and proved very useful during the [program] mapping days. In retrospect, this would have been even more effective if we had started the process sooner.”
