GREEN = Consult & Advise

RED = Still Discussing

*Possible Constraints

◊ Industry Recommendations

◊ Accreditation and/or licensing requirements

◊ IGETC/CSU GE Breadth Requirements

◊ Skill set for job placement (e.g., CTE)

◊ CRC GE Requirements

Stage Two: Utilization

Oversight Committee

(made up of counselors, admin., senate - perhaps Curriculum Committee, which would also facilitate review cycle)

(only includes courses offered that particular semester)

COUNSELING

STUDENT

EDUCATION PLAN

Suggest "telescoping" option modeled after Bakersfield in which students see more options the more they explore the interface

Stage One = Development

- Program faculty and GE Faculty find consensus on GE to complement program.
- Send draft to Oversight Committee (likely Curriculum Committee) for review (considers, among other things, resource implications of any decisions made).

  Example: AA in English (program = English faculty). Students will need a science course for degree. GE faculty in science work with English faculty to ID GE science courses most ideal for English AA degree.

- Counseling faculty included throughout process (blue/green notation in diagram).
- Oversight Committee either says yes or kicks it back to Program and GE faculty for revisions.
- Once approved by Oversight Committee - moves into Stage Two.

Stage Two - Utilization

- Template serves as advisory tool for Counselor and Student to create student's individual education plan.

Primary details to be determined:

(1) What is "n"?
How many GE courses per GE area should be recommended per program map?
Draft recommendation: Variable; the number for each individual program map is to be determined by Program Faculty and GE faculty on a case by case basis.

Primary details to be determined:

(2) What does the plus sign stand for?
(What is the nature of the agreement necessary between Program Faculty and GE Faculty?)
--Consensus?
--Program Faculty primarily relied upon?
--GE Faculty primarily relied upon?

Primary details to be determined:

(3) At what level will CRC make GE recommendations?
  --Institutional (like Northridge and Chico State)
  --Meta-Major (effectively, like Arizona)
 --Individual program (like Jackson and Sierra)

Arizona Transfer – GE Curriculum

- [Arizona Gen Ed Curriculum (AGEC)](#)
- "Successfully completing the AGEC means all AGEC courses will transfer as a block" and will transfer without loss of credit from any Arizona public community college to any other AZ public community college, ASU, NAU and/or UA.

AGEC Concentration Options

- *Dependent on the student's major.*

- *Three AGEC Blocks/Options:*

- *AGEC-A:* for students who want to study liberal arts when they transfer to the university (e.g., English, History, Religion, Philosophy, Communications)

- *AGEC-B:* for students who want to study business when they transfer to the university (e.g., Accounting, Economics, Finance, Marketing)

- *AGEC-S:* for students who want to study programs that require more rigorous math and science when they transfer (e.g., Biology, Chemistry, Engineering)

AGEC-A

CSU Northridge

- "At CSUN we offer you the possibility to make the most out of your General Education experience. Students enrolled in the GE Paths program explore a special theme or major question from an interdisciplinary perspective in the context of their general education requirements. You choose one of the different paths offered in the program based on your personal and intellectual interests and you take courses associated with the path. You do not have to take any additional courses in order to fulfill the requirements for the path."

Chico State

- Identifies the GE courses that fits specific pathways based on the GE course SLO.

Pathways in GENERAL EDUCATION

Diversity Studies
How difference—cultural, racial, sexual, biological, linguistic, or geographic—shapes who we are and how we live together. More

Ethics, Justice, and Policy Studies
Explore how ethics and justice help inform policy in areas related to the natural and human environments. More

Food Studies
We are what we eat! Explore the physical, social, and cultural dimensions of food at home and around the world. More

Gender and Sexuality Studies
Explore the diversity of sexual desire, social relationships, gender politics, cultural artistry, and biological systems. More

Global Development Studies
Explore the peoples of Latin America, the Middle East, Africa, and Asia and the challenges they face. More

Great Books and Ideas
Big questions and revolutionary solutions—the world's great books and ideas, ancient to modern, controversial to classic! More
Health and Wellness Studies
Students can apply the skills and knowledge gained in these classes to their lives and their health. More

International Studies
Explore the role of the United States and the economic, political, and cultural forces of globalization. More

Science, Technology, and Values
Explore how science and technology can shape the human condition—in the past, present and future. More

Sustainability Studies
Explore the deep connections between the health and vitality of the natural environment and human well-being. More
